# PT6A ENGINE EXTENDED WARRANTY

PT6SMART<sup>SM</sup>

As part of our PT6SMART™ initiative, Pratt & Whitney Canada Corp. (P&WC) is offering the PT6A Engine Extended Warranty, which provides an additional twelve (12) months or five hundred (500) engine operating hours, whichever occurs first, over and above your Basic Engine Coverage of the P&WC Warranty for New Engines for aircraft operating in commercial, corporate or private transportation applications.

The PT6A Engine Extended Warranty sustains the value of your aircraft asset while lowering the risk of unforeseen repairs and expenses so that you can:

- Increase buyer attraction
- Protect your investment longer
- Obtain a higher resale value of your asset
- Have greater peace of mind in managing your level of risk
- Better predict cost of ownership

If you are an operator wanting increased protection and peace of mind, the PT6A Engine Extended Warranty is a PT6SMART™ decision for many reasons:

**The PT6A Engine Extended Warranty follows the engine when you sell it.** If you sell the aircraft, the warranty will follow the engine along with any remaining hours on the current Basic Engine Coverage of the P&WC Warranty.

**The PT6A Engine Extended Warranty is straightforward.** One flat rate fee provides you with 500 hours or one year of additional peace of mind over and above of your comprehensive Basic Engine Coverage.

**The PT6A Engine Extended Warranty provides predictability.**

Based on current shop labour rates, engine repairs can quickly run into the tens of thousands of dollars. In the event something does go wrong, such as a defect in material and/or manufacturing workmanship for chargeable events, as defined in the P&WC Warranty, we've got you covered!

**The PT6A Engine Extended Warranty adds value.** Increase your ability to attract a larger buying audience and sell your asset faster.

**The PT6A Engine Extended Warranty reduces risk.** Continue to protect your engine after your Basic Engine Coverage has ended and ensure the value and security of your investment for even longer.

**The PT6A Engine Extended Warranty is affordable.** The Extended Warranty list price is \$12,000 US (2014) per engine.

**Who is eligible?**

The eligibility criteria to apply for the Engine Extended Warranty are the following:

- The warranty calendar limit on the applicable engine(s) has not been reached  
AND
- The warranty hours limit on the applicable engine(s) has not been exceeded  
AND
- A warranty extension has never been granted for the applicable engine(s).

**How do I purchase the PT6A Engine Extended Warranty?**

**There are two ways to purchase the Extended Warranty:**  
**(1) through the P&WC Service Network or**  
**(2) at select Fixed Base Operators (FBOs).**

**Option 1:** ► **CLICK HERE** for the application form and submit it directly. Alternatively, you can contact your Regional Sales Manager or call your local P&WC Field Service Representative. You may also call us or send us an email at:

Tel: 1-888-456-6067 (USA & Canada)
