Pratt & Whitney Canada

A United Technologies Company

Pratt & Whitney Canada Corp.
1000 Marie-Victorin
Longueuil, Québec
Canada J4G 1A1

Dear Customer:

Pratt & Whitney Canada Corp. extends to you a most cordial welcome to the global family of P&WC engine customers. We are investing heavily in our portal in order to provide you with new levels of speed and simplicity when dealing with Pratt & Whitney Canada. One important initiative is the transition of our Technical Publications to a totally online environment. We are conducting this transition in a phased approach, beginning with the ability to shop and order online, and following with the deployment of a web-enabled publishing tool on our Customer Portal.

To each new aircraft operator - EXCLUDING used aircraft - we supply a free online Maintenance Collection consisting of the following:

- Engine Maintenance Manual (available online)
- Engine Illustrated Parts Catalog (available online)
- Engine Service Bulletins, Spare Parts Bulletins and Service Information Letters (available online)
- Engine Diagnostic Tool – Spotlight (available online only for PW100, PW200 and PW300 models)
- Ground Base Software (available online, only for selected models)
- Fast System Collection (available online, only for selected models)

Revision service from date of aircraft delivery is provided free of charge for a period of two years, and at a nominal fee thereafter. You need to register to our My PWC Power portal now for access to Service Bulletins, Spare Parts Bulletins and Service Information Letters. Engine Diagnostic Tool and the Ground Base Software access are also available for selected engine models. Please register now at customer.pwc.ca to obtain your user name and password. There is a tutorial available under “Help – Portal Help – Launch Tutorial” to help with any questions.

Important – Please complete return this form + TDA to
